ROLES AND RESPONSIBILITIES

We are looking for a goal driven, energetic person with experience in industrial compression service products and excellent customer service skills. The ideal candidate will work well under pressure and within a team environment and have excellent communication skills. All candidates must have mechanical ability and hand tool experience. This position performs various up-keep and maintenance duties, duties may also include assisting other shop personnel, running parts and supplies from the warehouse to the shop floor. General assembly work that may require operating automated machinery and various power/hand tools.

- **Responsible for disassembling, repairing, and rebuilding compressors and related equipment**
- **Can identify, diagnose, and fix most compressor equipment component and instrument problems**
- **Works on various mechanical and engine components, instruments (e.g. pumps, controllers, valves, etc.), engine makes/types and accessories at shop location; will be required to work at field sites**
- **Possesses a strong knowledge of new compressor technologies and comprehensive mechanical, diagnostic and analytical skills**
- **Replaces and overhauls most compressors, checking bearings, crankshaft, etc.**
- **Works under general supervision, can complete basic tasks without direction**
- **Cleans gas compressor parts and equipment**
- **Performs various up-keep and maintenance duties not limited to running parts and assisting other employees**

Other duties, responsibilities and activities may change or be assigned at any time with or without notice.

ESSENTIAL FUNCTIONS

- **Must be able to lift 50 pounds unassisted**
- **Work from elevated surfaces**
- **Ability to crouch, twist, bend, kneel and stoup for extended periods of time**
- **Work in inclement weather**
- **Must have a valid driver's license and a clean driving record**

Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

QUALIFICATIONS AND EDUCATION REQUIREMENTS

A high school diploma or equivalent and a minimum of three years' experience servicing air compressors in addition to basic computer knowledge are required. Must have own basic tools.

Compression Leasing is an Equal Opportunity Employer.
