STATE-OF-THE-ART PAINT BAY

INNOVATIVE PAINTING & FINISHING SOLUTIONS FOR INDUSTRIAL EQUIPMENT COMPANIES

CLS PROVIDES STATE-OF-THE-ART FINISHING & RE-TOUCHING SERVICES IN THE AREA'S LARGEST MODERN PAINT BAY

At Compression Leasing Services, we offer only the **best**, from our **professional staff** to our **state-of-the-art painting facilities**. Our fully temperature controlled modified downdraft paint bay measures **70ft(L) x 20ft(W) x 20ft (H)**, and can be split to handle multiple jobs. Our facility meets all EPA environmental **air quality standards** and is equipped with an inset rail system, air operated man lifts and an evaporated cooling system to ensure a quality finish **every time**.

WHAT WE OFFER:

- We prep, prime and paint equipment to your color and coating specifications
- The area's most modern painting facility for industrial, oil field, and construction equipment
- Our knowledgeable staff will offer you the best painting package for your equipment and working conditions
- New equipment painting and equipment restoration services
- Drive in / drive out capabilities with inset rail system for product transportation
- Quick and reliable project turnaround time
- Air operated man lifts for taller paint jobs
- Sandblasting and shot peening
- Full hot water wash bay for cleaning and prepping equipment and parts for painting
- Parts washers and caustic hot tanks for oil and paint removal on components
- Mechanical, welding, and machine shop services for proper disassembly and reassembly of components and equipment
- Certified fire protection system for asset protection
- PLC controlled facility for proper air handling, temperature, humidity levels, painting and curing cycles
- Large doors and tall ceilings for large equipment
- Booth has proper lighting for better painting quality and less touch up
